Temperature & Humidity

Macaw: 37.1°C (98.8°F) Relative Humidity 50-52%

Other parrots: 37°C (98.6°F) Relative Humidity 50-52%

Egg Turning

Brinsea's Ovation Zoologica incubators turn the eggs on rollers with digital controlled precision. The spacing between these alloy rollers can be adjusted to suit different egg sizes. These incubators feature Brinsea's pinpoint control of temperature and humidity along with alarms to warn of power failure or room temperature changes to ensure the best possible hatching results for your exotic eggs. Brinsea's Mini II EX and Maxi 24 EX are full-featured incubators with high turning frequency and so ideal for smaller numbers of eggs.

Parrot Egg Incubation Period

Amazon		Musk	25	Budgerigar	18
Blue-Fronted	26	Ornate	26-28	Canary-Winged	26
